Problems

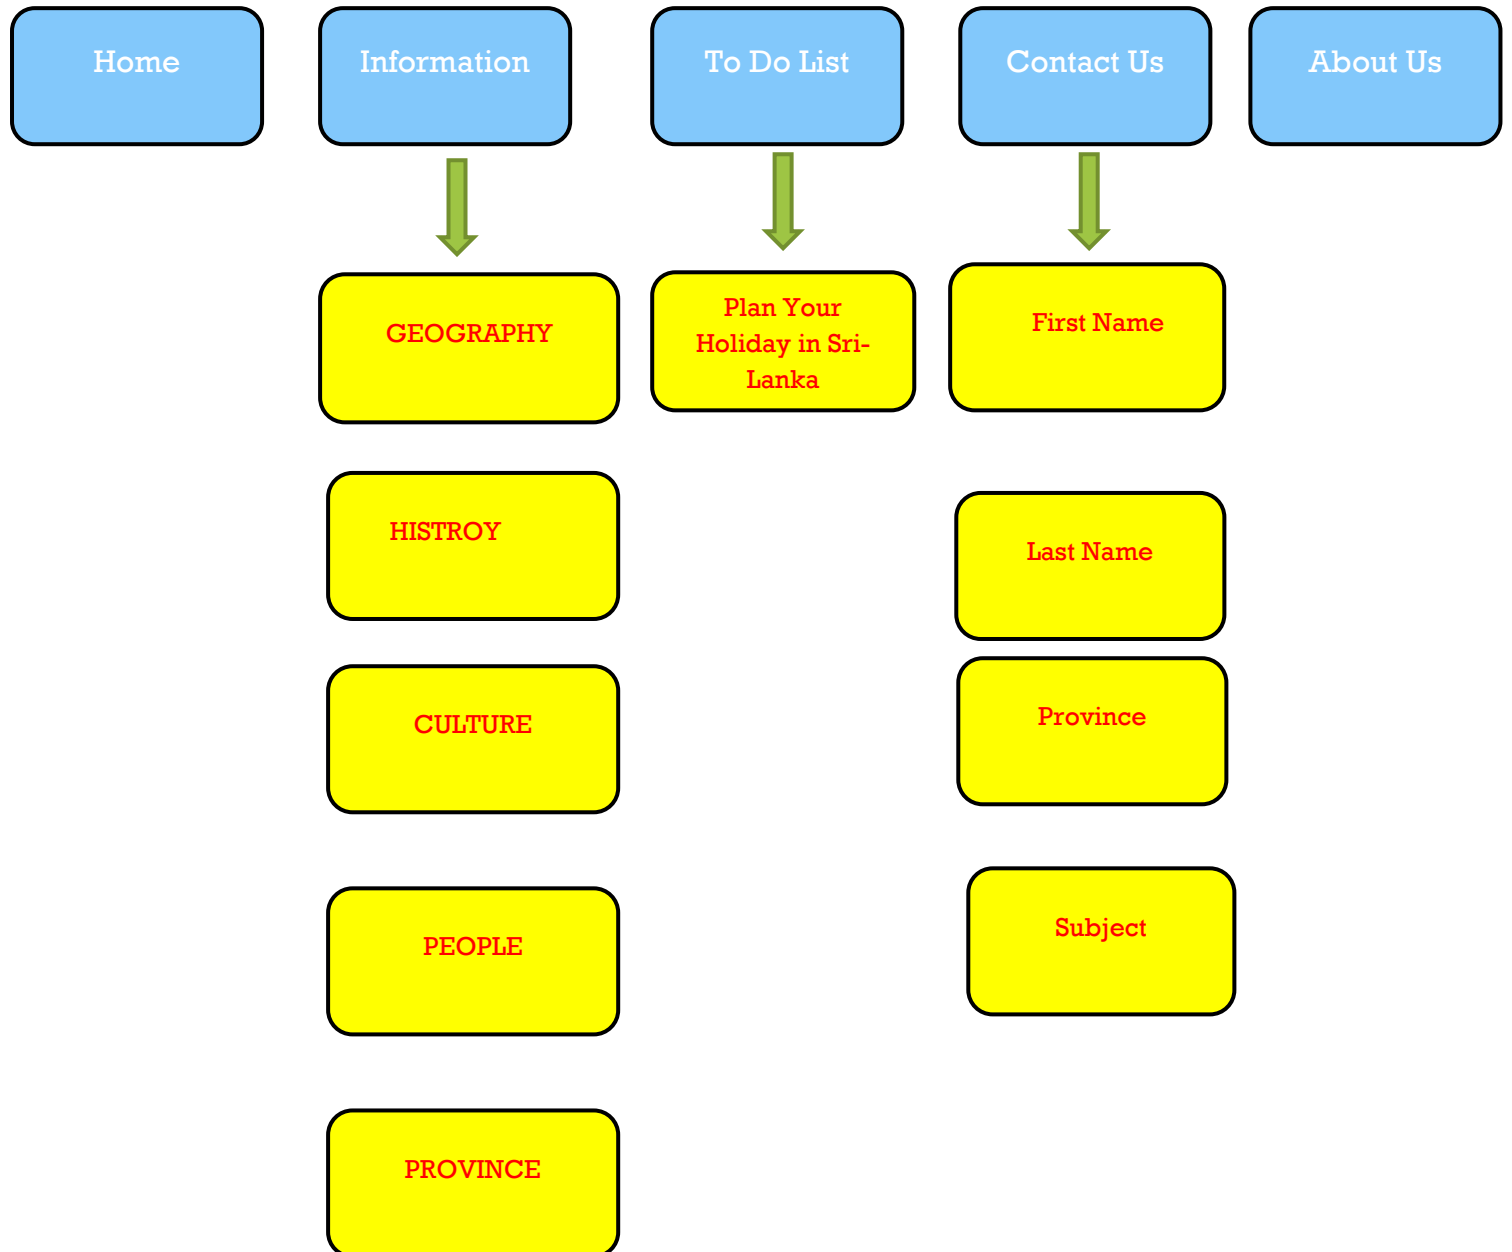

While completing the project I had to face several problems on Finding content, building the structure and some coding difficulties.

- ***Finding content***
 - It was challenging to find content to the website because there are so many details but I had to choose the write once, It was bit time consuming.
- ***Building the structure***
 - The second problem was arranging the gathered details in a order to make the structure.
- ***coding difficulties***
 - next problem was beautifying the web site using codes.

Solutions

- Found government web sites and gathered some details from there.
- Looked in to sample web sites and got an idea to make my Own.
- Referred some videos and pdf about Markup Languages.

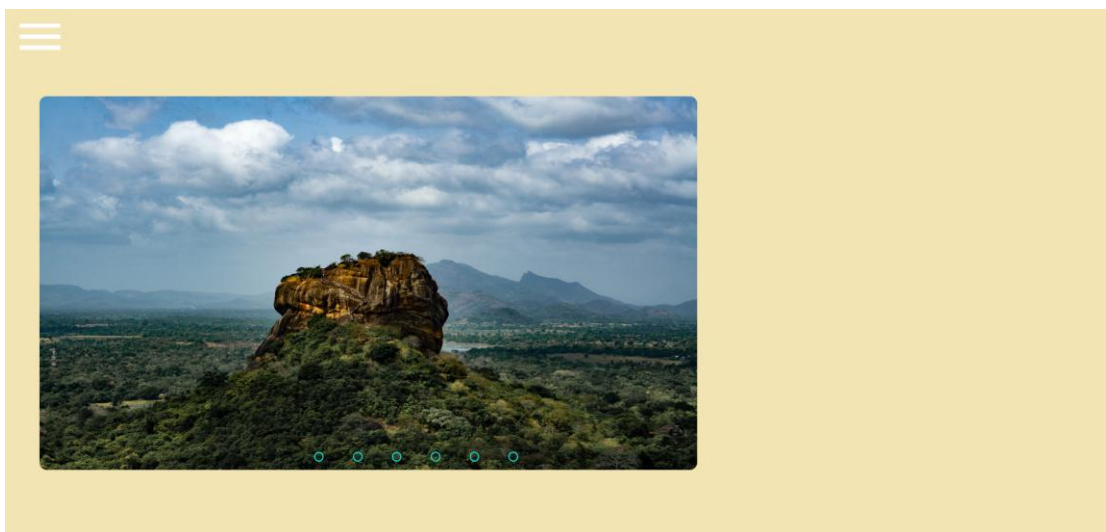

Site Map

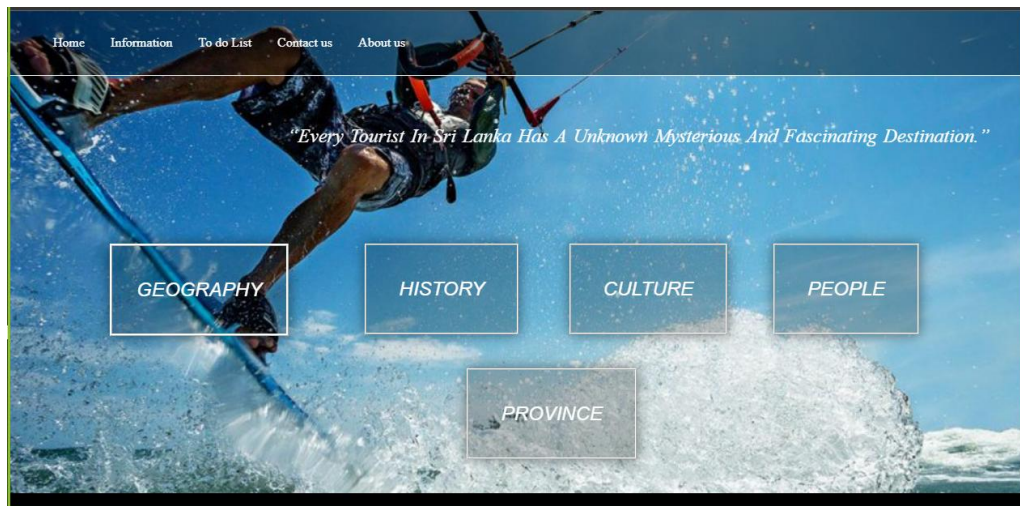

Web technologies

- HTML – For designing the structure of the web page.
- CSS- For Styling the Content Of the Web page.
- Vue JS – To build the TODO list.
- Java script-To Develop Navigation Bar & Search Bar.

PROVINCE

Location

Sri Lanka Is A Pearl-Shaped Island Nation In South Asia, Lying On The Indian Plate, A Major Tectonic Plate That Was Formerly Part Of The Indo-Australian Plate. It Is In The Indian Ocean Southwest Of The Bay Of Bengal, Between Latitudes 5° And 10° N, And Longitudes 79° And 82° E. Sri Lanka Is Separated From The Mainland Portion Of The Indian Subcontinent By The Gulf Of Mannar And Palk Strait. According To Hindu Mythology, A Land Bridge Existed Between The Indian Mainland And Sri Lanka. It Now Amounts To Only A Chain Of Limestone Shoals Remaining Above Sea Level. Legends Claim That It Was Passable On Foot Up To 1480 CE, Until Cyclones Deepened The Channel. Portions Are Still As Shallow As 1 Metre (3 Ft), Hindering Navigation. The Island Consists Mostly Of Flat To Rolling Coastal Plains, With Mountains Rising Only In The South-Central Part. The Highest Point Is Pidurutalagala, Reaching 2,524 Metres (8,281 Ft) Above Sea Level.

PEOPLE

People

Sri Lanka Is A Multi-Ethnic, Multi-Religious And Multi-Cultural Society, A Reflection Of The Island's Encounter With Successive Foreign Immigrants. But It All Began With Indigenous People, The Veddahs, Hunter-Gatherers Who Exist Today. The Main Ethnic Groups Are The Sinhalese And Tamils, Both Originally From The Indian Subcontinent. Then There Are Muslims, Who Settled In The Island From The Time It Became An Ancient Trading Centre. Similarly, Malays And Chinese Were Also Attracted To The Island. The Portuguese And British Brought With Them Kaffirs From Africa, And The Dutch An Assortment Of European Traders, The Burghers. There Are Other Communities Too, The Chetties From South India For Example. . . The List Is Extraordinary Whatever Their Situation In Society, The People Of Sri Lanka Possess A Warm And Friendly Nature Reflected In Persistent Smiling Faces And Eagerness To Help Those Unfamiliar With Aspects Of Local Life. You'll Find That Sri Lankans Are Very Hospitable And Take Pride In Inviting People To Their Homes, However Modest They May Be. So Don't Be Surprised If A Driver Or Guide, Or Indeed Virtually Anyone Encountered, Requests The Pleasure Of Your Company. And Don't Decline, As Sri Lankan Hospitality Is Taken Very Seriously!

Sri Lanka is a breathtakingly gorgeous country with a list of world-famous tourist attractions and activities. , the pearl of the Indian Ocean paradise we are happily waiting to show you the real wonders of this fascinating island through a masterly-made website.

Conclusion

- ❖ When developing the website the most important thing is arranging the content and the structure. After that following the plan will get the work done.
- ❖ in this mini-project, I'm able to know about my talent in web development.
- ❖ it's helped to improve my knowledge.
- ❖ I have learned many things via this project.
